Over-the-counter deals (OTC)

OWNR ecosystem started in 2019 with a multifunctional cryptocurrency wallet and now comprises a cross-platform wallet software, payment gateway for cryptocurrency purchase, crypto-to-crypto exchange API, buying and selling options

Over-the-counter deals

OWNR can serve as a trusted intermediary to process OTC transfers securely and quickly when you buy or sell large volumes of crypto.

We can help individuals and businesses with their OTC deals. Terms are described in the agreement.

Supported assets

	Incoming	Outgoing
Fiat assets	SWIFT, SEPA (EUR, USD, GBP)	
Crypto assets	BTC, ETH, USDT (ERC-20), LTC and many other coins	

Advantages

- Fees depend on transaction volume and may be negotiated, they vary from 2% to 4%
- Any volumes for OTC transactions can be considered
- Each transaction has an invoice and a receipt

KYC verification

We require you to have KYC verification for every client to make our service safe and secure.
