

# OWNR WALLET

Multiplatform Cryptocurrency Ecosystem

## Payment Gateway Commercial offer

### About us

OWNR ecosystem started in 2019 with a multifunctional cryptocurrency wallet and now comprises a cross-platform wallet software, cryptocurrency acquiring API, crypto-to-crypto exchange API, and a payment gateway for cryptocurrency purchase.

### Payment gateway

OWNR Wallet provides a card payment gateway integrated into your platform. Now you will be able to offer your customers an option to buy cryptocurrencies with bank cards. The integration includes purchase of any cryptocurrencies you have on the list. The purchased assets are sent directly to your clients' wallets on the platform. Clients will be verified by our Compliance team.

## Why choose OWNR payment gateway

OWNR offers competitive purchase rates so that your clients fully benefit from using your platform.

### Compliance and security

OWNR provides a PCI DSS compliant payment gateway to guarantee secure online transactions. Only 3DS and 3DS 2.0 transactions are accepted. All suspicious transaction activity is monitored and reported to you in a timely manner.

### Advantages

- No fixed fees for purchase
- Markup from 5% to 3%\*
- Wide geographic coverage of accepted bank cards
- Key payment systems supported: Visa, Mastercard, UnionPay
