Sell crypto with OWNR

OWNR provides services for selling crypto assets of your customers. We accept most of the TOP coins and can send fiat assets to Mastercard cards globally

Currently, we support only the MoneySend service by Mastercard. The similar technology by Visa - OCT (Original Credit Transaction) - is coming

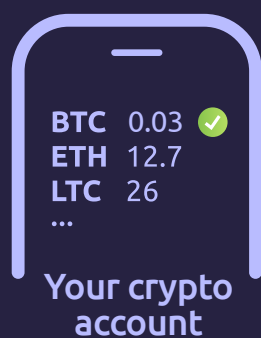

About us

OWNR ecosystem started in 2019 with a multifunctional cryptocurrency wallet and now comprises a cross-platform wallet software, crypto-to-crypto exchange API, and a payment gateway for cryptocurrency purchase

Integration

The process of integration is free and rather fast. Note that normally before MoneySend integration with OWNR we require a collateral deposit in fiat or cryptocurrency from a Partner

Cryptoassets >

Fiat assets >

Advantages

- Payouts in EUR, USD, GBP, RUB and other fiat currencies
- BTC, ETH and almost all the cryptocurrencies available on Partner's platform are available for selling
- Blockchain transactions are verified with special tools to ensure compliance
- Global coverage

Features

- 3-5% rates are applied
- The Partner's fees may be included
- Each customer is subject to KYC/AML verification
